POLICY 1B: INFORMATION SECURITY POLICY

Mathenge Technical Training Institute is committed to being a centre of excellence in providing scientific, technological, vocational education and training to her trainees for innovative nation building.

In executing this mandate, MTTI commits to secure its information by preserving Confidentiality, Integrity and Availability of the information assets during execution of her day-to-day processes.

The Institute has adopted, aligned and committed to the requirements of ISO/IEC 27001: 2013, and shall continually improve the information security management system to effectively protect information and its customers from information security threats, whether internal or external.

The Institute is committed to the attainment of the following information security objectives:

- 1) Preservation of confidentiality of information asset through provision of secure storage and transmission infrastructure
- 2) Maintain the integrity of the information assets through monitored information access and modification control levels
- 3) Provision of proper dissemination and backup of information to ensure its availability to authorized users when and as required
